

Stage 4 Restrictions

Stage Four restrictions are triggered when the daily level of the Edwards Aquifer reaches 630.0 feet above mean sea level or if required by the BexarMet Drought Contingency Plan.

Landscape watering is prohibited between the hours of 10 A.M. and 8 P.M. every day, year-round, except with a hand held hose; carwash fundraisers are permitted only at commercial carwash facilities; and water waste is prohibited at all times.

All restrictions from Stage 3 remain the same:

- Watering by hand means that the hose, regardless of attachment, must be held in the person's hand at all times while water is being applied to specific areas. Once a hose is laid down, but allowed to run, it is considered a sprinkler and subject to sprinkler rules.
- Watering with hand-held hose, 5-gallon bucket or drip irrigation permitted during the hours of 3 A.M. to 8 A.M. and 8 P.M. to 10 P.M. on Tuesday, Thursday, and Saturday only.
- Landscape irrigation variances will not be NOT approved for any reason.
- No sprinkler use on weekends.
- Watering with an irrigation system, hose-end sprinkler or soaker hose is permitted every other week beginning on the second Monday after Stage 4 has been declared and only on the designated watering day during Stage 4 hours:

Last Digit of Address

Last Digit of Address	Day
0 or 1	Monday
2 or 3	Tuesday
4 or 5	Wednesday
6 or 7	Thursday
8 or 9	Friday
Medians/Common Areas	WEDNESDAY

- Washing cars at home is permitted only during the designated watering day with a positive shut-off hose during Stage 4 hours. Water runoff onto streets is prohibited.
- Application of water to foundations with soaker hose, drip irrigation or 5-gallon bucket permitted during sprinkler hours on any day.

Stage 4 restrictions continue for at least 30 days until there is an announcement that Stage 4 has been cancelled.
