San Antonio, Texas 78225

## Customer Service Inspection Certificate

TCEQ 290.46 (j)

Name of PWS \_\_\_\_\_ PWS I.D. # \_\_\_\_\_

Service street address \_\_\_\_\_

Reason for Inspection (check one):

- New construction..... \_\_\_\_\_
- Existing service where contaminant hazards are suspected..... \_\_\_\_\_
- Major renovation or expansion of private facilities..... \_\_\_\_\_

I, \_\_\_\_\_, upon inspection of the private water distribution facilities connected to the BexarMet's water supply do hereby certify that to the best of my knowledge:

	<u>Compliant</u>	<u>Non-Compliant</u>
(1) No direct connection between the public drinking water supply and a potential source of contamination exists. Potential sources of contamination are isolated from the public water system by an air gap or an appropriate backflow prevention assembly in accordance with Commission regulations.	<input type="checkbox"/>	<input type="checkbox"/>
(2) No cross-connection between the public drinking water supply and a private water system exists. Where an actual air gap is not maintained between the public water supply and a private water supply, an approved reduced pressure-zone backflow prevention assembly is properly installed and a service agreement exists for annual inspection and testing by a certified backflow prevention assembly tester.	<input type="checkbox"/>	<input type="checkbox"/>
(3) No connection exists which would allow the return of water used for condensing, cooling or industrial processes back to the public water supply.	<input type="checkbox"/>	<input type="checkbox"/>
(4) No pipe or pipe fitting which contains more than 8.0% lead exists in private water distribution facilities installed on or after July 1, 1988.	<input type="checkbox"/>	<input type="checkbox"/>
(5) No solder or flux which contains more than 0.2% lead exists in private water distribution facilities installed on or after July 1, 1988.	<input type="checkbox"/>	<input type="checkbox"/>

Additional Information:

- |     |  |          |
|-----|--|----------|
| (1) | Manufactured / Mobile Home               | Yes / No |
| (2) | Swimming Pool Installed:                 | Yes / No |
| (3) | Aerobic System Installed:                | Yes / No |
| (4) | Alternate Water Supply:                  | Yes / No |
| (5) | Sprinkler / Irrigation System Installed: | Yes / No |
| (6) | Hose Bib Vacuum Breaker                  | Yes / No |

Type of Backflow Prevention Device(s): \_\_\_\_\_

Other information as appropriate: \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

I further certify that the following materials were used in the installation of the private water distribution facilities:

Service lines -      Lead \_\_\_\_      Copper \_\_\_\_      PVC \_\_\_\_      Other \_\_\_\_

Solder -              Lead \_\_\_\_      Lead Free \_\_\_\_      Solvent Weld \_\_\_\_      Other \_\_\_\_

I recognize that this document shall become a permanent record of BexarMet and that I am legally responsible for the validity of the information I have provided.

**Dear BexarMet Customer:**

**The Texas Commission on Environmental Quality, which regulates public water suppliers in Texas including BexarMet, requires an inspection of privately owned plumbing facilities within a house or other building before it is permanently occupied and before a metered water service connection is installed. A Certified Customer Service Inspector must perform an inspection of privately owned plumbing facilities and affirm the five statements on the first page of this form and complete this form in its entirety. Customers are responsible for the cost of the inspection. This inspection is not intended to be a comprehensive plumbing inspection or to determine if the plumbing satisfies national plumbing code requirements.**

**You may utilize a licensed plumber with a water supply protection specialist (WSPS) licenses to complete the survey or a licensed Customer Service Inspector (CSI) to complete the form. The latest list of approved inspectors is available through BexarMet's Inspection Department or Customer Service Department.**

**At the time of application for a BexarMet potable water tap for the service address, the applicant signed a service agreement acknowledging the responsibility of this on-site inspection requirement at a future date. The original applicant may have been a developer, builder, plumber, or homeowner. Regardless of who may have signed the original Service Agreement, this on-site inspection requirement is mandatory. Continuous water service is contingent upon completion of the customer service inspection certification.**

**Upon completion of the Customer Service Inspection Certification please forward the original completed certificate to BexarMet Inspection Department, 2047 W. Malone, San Antonio Tx. 78225.**
